

Employee & Workplace Safety

Keeping employees and visitors safe

Bring your people together to collaborate safely and without restriction

Challenges

Safety measures for employees

Changing regulatory requirements, while making sure the workplace is safe, so employees and visitors can feel confident to be on site.

Exposure to health risks

High-touch office facilities such as desk or room booking kiosks or check-in screens are becoming health risks in light of the pandemic.

Office capacity limits

With a limited office capacity, businesses will need to rethink their real estate strategies, it will be key to use data to understand how spaces are being used, and make data-driven space planning decisions moving forward.

Solution

Health screening

Get employees to self-certify and upload records of vaccination status before arriving on-site, ensuring everyone is aware of the health and safety guidelines.

Reduced touchpoints

Managing meeting room facilities using kiosks or tablets can be tricky as it creates a touchpoint. Check-in on your mobile device to reduce touchpoints.

Office capacity management

Take control of how you'd like your teams to use spaces with interactive dashboards to visualize office density and capacity.

Top Features

Vaccination Status

Self-certify before arrival

Get employees or visitors to self certify and confirm they are healthy before arriving on-site, keeping everyone there safe

Verify vaccination status

Ensure a safe work environment for employees to be on-site by uploading records of their vaccination status or negative Covid tests to comply with local regulations.

Touchless Check-in

Desk and room booking

Employees can find, book, and reserve the right spaces on-the-go for themselves or for a guest using the Kadence mobile app.

Mobile check-in

Check into reserved desks or rooms directly through the mobile app, so there is no need to touch shared surfaces.

Manage Office Capacity

Capacity control

Daily reporting helps you understand the actual usage of spaces, while having flexible control to adjust capacity

Social distance desk booking

Facilitate what spaces are available to use to keep people safe and space less crowded

Smart space management

Even out your bookings by making certain spaces unavailable to book during busy periods to maintain office density

Contact Tracing

Space bookings and usage tracking

Keep track of space bookings, combined with check-in data for contact tracing - know who has been on site and when

Visitor logging

Identify visitors who may have been exposed to health risks based on your visitor sign-in records to keep employees safe

Customer Testimonials

Simple, intuitive and valuable

The self-certification feature has really helped us manage various regulatory requirements.

**Workplace Experience Supervisor,
Softchoice**

Return to the office with confidence

Kadence is really easy to use and understand. It has enabled our team to return to the office with confidence and clarity,

**Director of Finance & Operations,
Create Charity**

Productive, Essential, Easy

With the pandemic, it is very important to keep track of any tracing and interaction. With Kadence, this process made it easy and simple.

About Kadence

Our vision is to create a world in which every person has access to the opportunity, the tools, and the environment to do their best work wherever they are. Now is the time for organisations to reimagine and reinvent the way they work and seize the opportunity to create a strong people-first culture where everyone can thrive.

We believe the way we work should lift us up, not lock us in – enabling people to flourish in everything they do. That's why we're building the next generation of tools for hybrid working, designed to unleash the potential of people, powering a more positive way of getting work done.

By building the operating system for the future of work, we improve the coordination of people, time, and space to help teams feel trusted and empowered to make the best choices about how, when, and where they get their best work done.
