

Team Collaboration & Visibility

# Create the best hybrid working experience for your people

Visibility and access to everyone's schedule helps keep your team in sync like never before

# Challenges

## Connecting with the right people

Employees are missing out on face-to-face team collaboration and with everyone on a different schedule, it's hard to connect with the right people face-to-face in the office.

## Wasted commutes to the office

In pre-pandemic work, everyone knew their team would be in the office. That's changed. Employees want to know in advance where their team are working so they can plan ahead.

## Building deeper team connections

Colleague connection, and community is now a priority for employees. Workplace leaders are keen to build company culture amongst their people with the right tools to help them connect face-to-face.

# Solution

## Schedule visibility

Plotting when you expect to be in the office or working remotely on a given week and allowing other colleagues to see that plan so they can connect with you.

## Employee access

Connecting with the right people outside of your direct teams is paramount for getting work done. Accessing the right people fast and connecting with them helps everyone achieve great work.

## Understand employee booking habits

By giving employees the ability to choose how their people work best allows workplace leaders to understand how their spaces are being used, and on which days.

# Top Features

## Personal Kadence

### Collaborate at the right time

Teammates can easily collaborate by knowing the best time to meet in advance with clear visibility to teammate schedules

### Tap into employee habits

Allow your team to choose when and where they work best to better understand space usage and employee booking habits

## Profiles & Teams Activity

### Streamline team coordination

See all of your teams in one single overview and plan ahead by knowing when your team plan to be in the office, at which location

### Know when and where your team are working

At a glance bookings visualized in one place allowing users to see where their team are working and when

## Employee Directory

### Access the right people fast

Full access to colleagues' profiles allows employees to see their schedule, and when they're next in the office so they can plan to connect

### Manage your people in one place

Now with all of your people in one place, you can find anyone you need using intuitive filtering to find who you're looking for

## Colleague Finder

### See where your teammates are sitting

Users can see where their teammates are sitting on the interactive office floor plan, and within the '**upcoming**' section on their profile

### Book a space near your teammates

Now that you know where your colleagues are sitting, you can tap on the nearest space that has the right amenities you need for the day and make your booking

# Customer Testimonials

## Simple, intuitive and valuable

The self-certification feature has really helped us manage various regulatory requirements.

**Workplace Experience Supervisor,  
Softchoice**

## Return to the office with confidence

Kadence is really easy to use and understand. It has enabled our team to return to the office with confidence and clarity,

**Director of Finance & Operations,  
Create Charity**

## Productive, Essential, Easy

With the pandemic, it is very important to keep track of any tracing and interaction. With Kadence, this process made it easy and simple.

**Properties Assistant, Shipt**

## About Kadence

Our vision is to create a world in which every person has access to the opportunity, the tools, and the environment to do their best work wherever they are. Now is the time for organisations to reimagine and reinvent the way they work and seize the opportunity to create a strong people-first culture where everyone can thrive.

We believe the way we work should lift us up, not lock us in – enabling people to flourish in everything they do. That's why we're building the next generation of tools for hybrid working, designed to unleash the potential of people, powering a more positive way of getting work done.

By building the operating system for the future of work, we improve the coordination of people, time, and space to help teams feel trusted and empowered to make the best choices about how, when, and where they get their best work done.
